“These individuals did their sentences, paid their debt to society. Debt Paid In Full.”

Sen. John Kissel

“[P]eople talk about public safety without actually explaining how [Registries] increase public safety, and often they don’t.”

Sen. Gary Winfield

- They were registered outside of judicial process
- NO public benefit to their being on the Registry
- Families of people forced to register have been harmed by the Registry for decades

“Even when we are successful, we’re still treated as second class citizens.”

“Had the Registry been part of my decision to take a plea agreement, I would have adjudicated it differently.”

“All I want is to have a job and live in peace with my family.”
